*** launched 14 March 2012

Important legal information:

FF is an abbreviation for Fidelity Funds. Performance calculated NAV to NAV, gross income reinvested, in fund currency, excluding initial charge. Past performance is no guarantee of future returns. Data unaudited. Assets and resources as per 30 September 2012.

Fidelity/Fidelity Worldwide Investment means FIL Limited (FIL) and its subsidiary companies. Assets and resources as at 30 September 2012. Data is unaudited. Fidelity Funds is an open-ended Luxembourg based investment company. We recommend that you obtain detailed information before taking any investment decision. Investments should be made on the basis of the current prospectus and key investor information document, which are available along with the current annual and semi-annual reports free of charge from our distributors, from our European Service Centre in Luxembourg and from our legal representative in Switzerland: BNP Paribas Securities Services, Paris, succursale de Zurich, Selnaustrasse 16, 8002 Zurich. Paying agent for Switzerland is BNP Paribas Securities Services, Paris, succursale de Zurich, Selnaustrasse 16, 8002 Zurich. Fidelity only offers information on its own products and services and does not provide investment advice based on individual circumstances. Fidelity Funds are part of Fidelity Funds ("FF"), an open ended Luxembourg based investment company. In certain countries, and for certain types of investments, transaction costs are higher and liquidity is lower than elsewhere. There may also be limited opportunities to find alternative ways of managing cash flows especially where the focus of investment is on small and medium sized firms. For funds specializing in such countries and investment types, transactions, particularly those large in size, are likely to have a greater impact on the costs of running a fund than similar transactions in larger funds. Prospective investors should bear this in mind in selecting funds. Fidelity Funds - India Focus Fund (the "Fund") will invest in Indian securities through a wholly owned Mauritian subsidiary, Fid Funds (Mauritius) Limited, whose sole object is to carry out investment activities on behalf of the Fund. FIL Investments International provides investment advisory and management services to Fid Funds (Mauritius) Limited in relation to Indian securities. FIL Investments International has obtained approval from the Securities and Exchange Board of India and the Reserve Bank of India to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Institutional Investor ("FII") under Indian law. Fid Funds (Mauritius) Limited is registered as an FII sub-account of FIL Investments International's FII license in order to be able to invest in Indian securities. The availability of the product(s) and the portfolio manager(s) proposed in this document is based on the situation at the time of submission and may be subject to change. Source: Standard & Poor's and Fidelity. Performance calculated NAV to NAV, gross income reinvested, in base currency, excluding initial charge as per 30 September 2012. Past performance is not a reliable indicator of future results. The value of investments and any income from them may go down as well as up and an investor may not get back the amount invested. For funds that invest in overseas markets, changes in currency exchange rates may affect the value of an investment. Investments in small and emerging markets can be more volatile than other more developed markets. Due to the lack of liquidity in many smaller stock markets, certain Country Select Funds may be volatile and redemption rights may be restricted in extreme circumstances. Due to the greater possibility of default an investment in a corporate bond is generally less secure than an investment in government bonds. Default risk is based on the issuer's ability to make interest payments and to repay the loan at maturity. Default risk may therefore vary between different government issuers as well as between different corporate issuers.
